Dear [redacted]

Regarding the information in our previous e-mail we would like to specify that all wind power plants which are included in the Court judgement in case C-141/14 had concluded preliminary contracts for connection to electricity network before Energy from Renewable Sources Act to became in force. This is also valid for "EVN Kavarna", which has contract for connection to electricity network from 19th January 2011.

Also, we would like to clarify that Energy from Renewable Sources Act has not retroactive effect concerning to RES power plants in operation.

Regards,

[redacted]

Please find attached the information for wind power plants, which are included in Court judgement in case C-141/14. We could not find any information for electricity generation from wind for company "Brestiom" LTD.

Regards,

[redacted]

Dear [redacted]

Could you provide us with the following information regarding the problematic wind installations covered by the Court judgement in case C-141/14 Commission vs Bulgaria:

- Commissioning date of the installation
- Total installed capacity of the installation
- Ownership

We would very much appreciate your quick reaction on that.

Thanks in advance!

Best,

[redacted]

Importance: High

Dear [redacted]

Here is the text of the commitment we would request the Bulgarian authorities to make with regard to the problematic wind installations in breach of environmental legislation:

" The Bulgarian authorities confirmed that wind turbines covered by the judgment of the Court of Justice in case C-141/14 Commission vs Bulgaria[1] will not receive support under the notified aid scheme until the moment the Commission is satisfied that Bulgaria has implemented the necessary measures to comply with the said judgment "

For your convenience here is also a link to the Court Judgement.

We are looking forward to hearing from you soon.

Best,

[redacted]
